Club Established in 1959

August 2010

The President's Corner

by P.J. Ash

I can't believe that we are looking at fall in only a few short months! With the weather being what it is, all I can say is HOT!! I'm sure many of you feel the same way as do I. It has been hard for me to make it out to the field as much as I would like but when I go, it is always nice to see the friendly faces and enjoy the flying.

I really don't have too much to report on the warbird show. Those who showed up seemed to have had a lot of fun. I was a little disappointed in the lack of attendance by some of our own warbird modelers, but none the less, we enjoyed the show. We had a total of 17 registered pilots with around 40 airplanes. Most ranged in the WWII with many electrics. The weather was in the high 80's and it was a little windy. However the wind we did have was down the runway. All in all, I think it was a successful show and those who did show up had fun!

I do want to take a minute and thank many of the hard working folks who do support the club and want to make it a better place to fellowship and fly. Not only do you make the club a better place, you enhance it with your attitude. I have on my desk a small "card sized" sign that say's "attitude is everything". A simple message that really does explain it all! I really do enjoy the attitude of many of the club members that in turn simply make my experience at the field fun. Hey, that is what it is all about isn't it?

As far as the LFUCG go, we are working on some ideas that will make our relationship with them better. I do look forward to an ongoing dialogue that educates the LFUCG on our club and the club's operation at the site. On a positive note, it has been brought to my attention that you do not have to be a licensed land field operator to gain access to the land field. This came from the LFUCG and now we are working on who and how many would need training for us to possibly have a few LMAC members gain access to the field during "off hours". We will keep you informed as we move forward.

I look forward to seeing you at the next meeting. If you have an airplane that you are working on or have completed, bring it out to the meeting. We would love to see it!

Keep em flying!

PJ

Electric Fly

by Jim Jackson

Winchester Events

- June 5th.....Harold Brown Memorial Eat
- July 24th.....Glider Fun Fly
- October 2nd.....Barnstormer Fall Fun Fly
- November 6th..... Fall Indoor fun fly

For Sale

I need to sell due to lack of room and downsizing. I have a Balsa USA Nieuport 17 with an O.S. 120 4 stroke engine. It has an 80" wingspan, is covered in silver solartex with the Lafayette Escadrille decals and roundels. It has JR servos and the rudder has a heavy duty servo the manual recommended. It flies great and has never been thumped. It has vintage wheels, pilot and Vicker's machine gun. A new unbuilt one would cost over \$900 so I would like to get \$425 to \$450 for it. I also have a Great Planes DR.1 triplane ARF in perfect condition with a Saito 65 Golden Knight. It is approx. 1/4 scale, has pilot and Spandau machine guns. Ready to fly just add receiver. I would like to get \$225 to \$250 for it. I have a Direct Connection F-20 Tigershark with Spring Air retracts and all servos with an O.S FX 46. It is gray with yellow and black checkerboard trim. Asking \$50. I have an Aspire electric glider for \$15 and lastly a Kyosho Gee Bee model Z, all fiberglass, like the one in the movie Rocketeer.(yellow and black with red trim). Asking \$25. My phone # is (937) 621-4100 and my e-mail address is sjblakeley@msn.com.

May newsletter deadline is September 2nd.
Please submit your info by or before the September 2nd.
