

The President's Thoughts
By Mickey Breunig, President

We had some really nice weather it seems a month ago and the entire past month has been miserable, but this Saturday it is predicted to be a nice day. We have gotten very lucky because we had decided to move the meetings to the field a month earlier this year.

There is much we need to discuss for the upcoming year. When we have the meetings at the field, we will normally have some lunch afterwards and this meeting will be no different. We plan on having hamburgers following the meeting. Grab an airplane and come on out to the field this Saturday for the meeting and enjoy the nice weather Saturday will bring.

A group of us are going to be selling some airplanes. These are Mr. Ed Reeds airplanes, and he has decided to downsize. Sometime in the next couple of weeks we will send out an email with pictures and descriptions of the airplanes, most are ready to fly and in good condition. Most are glow powered but some are electric. We will be listing some dates and times that these airplanes can be inspected for purchase. Please keep these in mind and watch for the email if you are thinking of a new airplane for the year.

The meeting is Saturday April 13 at the field @ 11:00am.

I hope to see you there.

Blast from the Past

By David J. Price

This series of articles will present advertisements from vintage modeling magazines. The intent is to illustrate technological advances that have taken place in our hobby. For some it will bring back memories, for newcomers it will present a piece of history of radio control model aviation.

Here is an advertisement from the April 1948 issue of Model Airplane News for the Mart-Lee Muffler. I like the statement: "Beautify your model and silence complaints".

Note:

- If you need the instructions to install the four cameras at the field, e-mail me @ Imactreasurer@gmail.com and I will send you the instructions. **ONLY** four members can access the cameras at one time. When you are finished, please close the app so others can get access. The parking lot cameras are the only cameras that are working right now
