

## ***The President's Thoughts***

***By Mickey Breunig, President***

I summer flying looks as though everything is going smoothly. I see a lot of people getting out enjoying the field and flying quit a bit. Most don't realize everything what goes into making our field and club as enjoyable as they are. On a monthly basis there are a lot of people that have to make an effort in order for us to have the facility that we have. Most of the time it is the officers and a select few that keep everything going. In the past month there have been a few people that have made an extra effort to help things be more enjoyable.

The picnic was a very enjoyable event. Things went vey well because of the efforts of a few people. Martin Weinstock organized everything. He made sure we had plates to eat from, forks to eat with, and tables to eat at. He even made sure we had cold drinks on a hot day.

Terry Booth is always in the background cooking and hardly ever gets recognized. Rather than doing what he would rather do, flying one of his many models, Terry made sure we had some delicious pork loin as a main course at the picnic. This takes most of the morning when he could be flying not to mention that he still has cleanup to do in the afternoon.

We all should feel a little bit safer at the field since Jeff Cummings made sure we had up to date fire extinguishers at the field. He also found us an eyewash kit in case someone gets a chemical in there eyes. This could happen to any one of us. It's nice to know someone is looking out for our safety.

Most of us are enjoying the fact that we can all see what is happening at the field on the cameras. It has taken a lot of effort to install and maintain the cameras at the field. Dan Thompson has not only researched and purchased the cameras at the field but he has made many trips to the field to make sure they are functioning as they should.

I am sure all of these people enlist the help of others to get the job done. I hope everyone appreciates the efforts that all of these people make and at some point take the time to thank them and everyone who has helped them make the club and the field a more enjoyable and safer place to fly. They usually get no thanks for their efforts, even though it is well deserved.

# ***Meeting Minutes from July 10, 2021***

***by George Kissick***

**LMAC Meeting Minutes**

**Date: 7/10/2021**

## **Call to Order**

Call to order the Lexington Model Airplane Club at 11:00 a.m. on 7/10/2021

### **I. Approval of minutes from last meeting**

- i) Motion to approve by Dan and Mickey
- ii) Minutes were accepted and approved by the members present at the meeting

### **I. Treasurer Report**

- i) Motion to approve by Mickey and Martin
- ii) Approved by the membership at large

### **II. Safety Report**

### **III. None**

- a) None

### **IV. Senior Advisor Report**

- a) None

### **V. Training Report**

- a) No report

### **VI. Old Business**

- a) Trainer banger scheduled for October 2, 2021
  - i) Entry fee for all flyers will be used for prizes
  - ii) There will be two categories, novice and advanced
- b) Two additional cameras to be installed pointed toward the parking lot
  - i) Cost 138.00
  - ii) Motion to approve by Mickey and Bill
  - iii) Approved by the membership at large

### **VII. New Business**

- a) Portable eye wash station will be investigated for purchase to add to the first aid supplies
- b) On inspection of the fire extinguishers, it was determined that some need replacement

### **VIII. Meeting Adjourned**

- a) Meeting Mickey called for the meeting to close
- b) Voted and approved by the members present

Time: 12:04 p.m.

**Next LMAC Club Meeting:**  
***Saturday, August 14, 2021, at 11:00 AM***  
***At LMAC Flying Field 4200 Hedger Lane,***  
***Lexington KY***  
***Visitors are Welcome !!***

## Blast from the Past

By David J. Price

This series of articles will present advertisements from vintage modeling magazines. The intent is to illustrate technological advances that have taken place in our hobby. For some it will bring back memories, for newcomers it will present a piece of history of radio control model aviation.

Here is an advertisement from the August 1942 issue of Model Airplane News for Testors Model Airplane cement and Butyrate Dope. Testor Corporation is still a large American manufacturer of model kits, tools, and accessories based in Rockford, Illinois.

According to Testors web page (<https://www.testors.com/pages/about-testors/our-history/>):

The company started back in 1929, when Nils F. Testor, a young Swedish immigrant, purchased the assets of a small Rockford company making an adhesive product called "Karlson's Klister." Klister was an adhesive made for mending women's stockings, and chiefly used by local cobblers for making and repairing shoes. As the glue became more popular other applications were developed. The young company eventually fell on hard times. Axel Karlson, the founder, sold his interest in the firm and returned to Sweden. Nils Testor recognized the need for this kind of adhesive and stepped in and took over what was soon to become the Testor Chemical Company. Hobbyist model cement and butyrate dope were introduced to the public in 1936.

## LMAC Club Picnic

The Club Picnic was Great as usual with a lot of good food. It took place on July 24 and the weather was nice. If you missed the picnic you should plan on coming to next years. There was a good selection of food and of course Terry cooking of the meats was great as usual. Thanks to Martin Weinstock for taking the led on this event. Thanks to all those that helped set up the tables to give everyone a place to eat. There were about 70 people there and a whole lot of airplanes. The guys from Ohio came down with their big 3D airplanes. Thanks to everyone who attended and for bring all the great food to share with all that came. See ya next year.

## ***Swap Meet Change of Venue.***

Due to the Bingo Hall moving this year to a new location. Their new location is not suitable for us conduct our swap meet. So we are moving our annual swap meet to West Jessamine High School. The date is November 13, 2021. Please plan on attending and helping with the set up before and after the swap meet. There will be tables to set up for all the items that folks bring to sell.

## ***Additional Cameras added at the LMAC Flying Facility.***

There have been two new cameras installed at LMAC. If you would like access to these cameras, send an email to Dan Thompson at [wb4guk@aol.com](mailto:wb4guk@aol.com).

In the subject line put "LMAC new cameras"

Also give me your full name and AMA number.

These cameras are for LMAC members only.

Dan Thompson

*"Where Friendship and Flying  
are Equally Enjoyed"*

The dates are September 16 - 18, 2021

Location - The Lexington Model Airplane Club Field. 4200 Hedger Lane, Lexington KY. Via I-64 take exit 87 and follow the signs. You can travel interstate highways to within a couple miles of our field.

If you would like to come to a laid back fly-in without too many rules, the Kentucky Fall Classic may be your event. We offer hospitality and fun. One of the best home cooked dinners you will ever get at a fly-in or restaurant. We have lots of hotels, restaurants and other entertainment all within a few minutes of our field.

This is technically a Giant Scale Event but we will allow open flying on Thursday and Sunday. Giant scale specs apply on non-open flying days with some exceptions. Mono plane = 80 inch or larger wingspan, Bi-plane = 60 inch or greater wingspan. Warbirds with 70 inch wingspan or greater. Any size turbine jets.

Landing fee is by donation. Camper hookup is \$10 per night.

We hope to have some fun things planned for the open flying days. Hint - Bring your electric planes and practice your spot landings.

A Saturday night dinner for pilots and their guests will be available. Tickets will be \$12.00 per plate.

The field features a 650 foot paved runway and a parallel grass runway. The flying area is open and unrestricted. Onsite camping is permitted. We have 8 - 30 amp hookups. They are first come first served reservations will not be accepted.

Contact - Curtis Adams, 859-421-0421, [cadams5420@gmail.com](mailto:cadams5420@gmail.com)
