

The President's Thoughts
By Mickey Breunig, President

Everyone should be aware of how the club is run. The club is run according to the club bylaws. The club bylaws are on the website and are listed under Club information.

Included in the bylaws are how the club is to be run. They go into detail of what is to be done at certain times of the year, how the club votes, as well as when the club meetings are to be held. No one person makes the decisions for the club, most things are voted on in the meetings and it gives each member as equal a voice as each member.

The bylaws also go into detail of what each club officers' responsibilities are. Some of the officers have more responsibilities than others and officers' duties can be combined where one person can hold a few positions. The club officers make up The Board and The Board is allowed to make recommendations but even with those recommendations, most all decisions still come down to a vote of all club members at a meeting.

Over the years we have tried to make it as easy for club members to attend club meetings as we possibly can. I would encourage all club members to attend the meetings and see how the club is run.

Our next meeting is Saturday at 11am at the field.
We will have lunch following the meeting.

I hope to see you there.
Michael Breunig

Next LMAC Club Meeting:
Saturday, August 12, at 11:00 AM
Meeting Location:
LMAC Flying Facility
4200 Hedger Lane
Lexington, KY

Meeting Minutes from July 15, 2023

By John Royalty

Call to Order

Lexington Model Airplane Club called to order by Mickey at 11:05 a.m. 7/15/2023

- A. Newsletter accepted for approval
 - B. Mickey made the motion
 - C. Jeff Cummings seconded
- Motion carried

Treasury Report

- A. Mickey B made the motion to approve
- B. Sylvester H seconded
- C. Motion carried by the membership

Minutes

- A. Motion to approve minutes by Jessie
- B. Motion seconded by Martin W
- C. Motion carried by the membership

Training

- A. Jeff has two students in training
- B. New Member Rocky Bender is in training.
- C. Jeff has had few calls on training for others.

Safety Report

No Report at this time

Old Business

a. Workday runway update. Going to try another method for fill cracks in runway, on next workday going to try concrete in cracks. The siding and ceiling vinyl will be done when supplies is purchased.

b. Clint Cummins sealed pit area from shelter to start of taxiways. Need to purchase 5 more buckets to finish the remainder of the taxiways.
Motion was made by Mickey to approve up to \$200 to purchase sealer to finish project. Seconded by Jeff Cummings.
Discussion on sealing cracks only on runway by a commercial company, going to get estimates on filling cracks only.

Meeting Minutes from July 15, 2023

By John Royalty

(cont'd)

New Business

Camping for Fall Classic, so far collected deposits for 6 sites reserved, which means only 2 sites left.

Some discussion on increasing fees to cover more of electric usage. It was decided to not make any changes at this time.

The shelter roof is need of some repair/re-shingle and Jim Newberry meet a company out at the field to get estimate on the repair of roof. The estimate given to club was \$6,950 includes two 4x8 sheets of decking. No decision was made, club is waiting on LFUCG decision on possible insurance coverage.

Gayle M made the motion to adjourn the meeting
Seconded by Clint C

All those present voted to adjourn

Meeting adjourned at 12:00pm

Cartoon Corner

Blast from the Past

By David J. Price

This series of articles will present advertisements from vintage modeling magazines. The intent is to illustrate technological advances that have taken place in our hobby. For some it will bring back memories, for newcomers it will present a piece of history of radio control model aviation.

Here is an advertisement from the August 1966 issue of Radio-Controlled Modeler for the Cherokee from VK Model Aircraft Co. I flew one back in the late 70's and it was a very good flyer. One day, my flying buddy was taking off and, at full throttle, the propeller blade sheared off downwardly and proceeded to bounce back and forth under the fuselage, destroying the airplane.

THE CHEROKEE

Club Picnic July 22, What a Great day of Flying!

Our club picnic was Saturday, July 22. We had a lot of good food as always. Everyone was asked to bring a dish to share with others and as always, they didn't disappoint. The club supplied the meat which was Smoked Pull Pork which was good as always. Thanks to Jim Newberry all he did to prepare for the picnic. making sure we had everything need to have a successful event. The weather was perfect, there was a lot of nice planes. There were about 40 people in attendance. And everyone got as many flights in as they wanted. This event is always a fun time, and we had people from surrounding clubs and states. The pictures below tell the story of how much fun this event is each year. If you haven't attended this club event you are missing out on good food and great fellowship with like mind people that share our wonderful hobby.

See you next year.

LMAC Club Picnic Pics

AMA Corner.

AMA Continues to Accept and Submit FRIA Applications

As the deadline for Remote ID approaches (September 16, 2023), we are receiving a lot of status update requests for FAA-Recognized Identification Area (FRIA) applications.

The AMA FRIA team is reviewing and processing FRIA submissions on a first come, first served basis. Please understand that it can take anywhere from a few minutes to an hour or more for each application. Some submissions are straight forward, and we can forward the data to the FAA right away; others require additional follow-ups with the primary point of contact listed on the application.

The FAA started the official approval process on July 5, because they had to wait for the adjudication period for the National Environmental Policy Act to end. When an application has been reviewed and processed, the FAA will send a notification email to the AMA club member who submitted the application on behalf of the club, as well as the club's primary point of contact. At this time, there is no listing available to see which application was approved/denied or is still pending, so it's important for the primary point of contact to check emails.

As of the beginning of August, we have processed and submitted more than 1,200 applications to the FAA and currently have approximately 300 pending. Some of these are for secondary flying sites. We are working hard to get all of the current applications submitted to the FAA before the deadline.

We have received nearly 200 approvals so far and more are coming in daily.

Important: FRIA applications MUST be submitted by the community-based organization on behalf of its clubs. If you submitted your club's FRIA application through the FAADroneZone web portal, the FAA will deny your request.

Make sure you submit your information at www.modelaircraft.org/form/fria-application so that AMA can submit the application on your club's behalf.

September 7, - 9, 2023

Location - The Lexington Model Airplane Club Field.

4200 Hedger Lane, Lexington KY.

Via I-64 take exit 87 and follow the signs.

You can travel interstate highways to within a couple miles of our field.

If you would like to come to a laid-back fly-in without too many rules, the Kentucky Fall Classic may be your event. We offer hospitality and fun. One of the best home cooked dinners you will ever get at a fly-in or restaurant. We have lots of hotels, restaurants, and other entertainment all within a few minutes of our field. This is technically a Giant Scale Event, but we will allow open flying on Thursday and Sunday.

Giant scale specs apply on non-open flying days with some exceptions.

Monoplane = 80 inch or larger wingspan,

Bi plane = 60 inch or greater wingspan.

Warbirds with 70-inch wingspan or greater.

Any size turbine jets.

The landing fee is by donation.

We hope to have some fun things planned for the open flying days.

Hint-Bring your electric planes and practice your spot landings.

A Saturday night dinner for pilots and their guests will be available. Tickets will be \$15.00 per plate.

The field features a 650-foot paved runway and a parallel grass runway.

The flying area is open and unrestricted.

Onsite camping is permitted. We have 8 - 30-amp hookups. Camper hookup is \$10 per night.

This year we will be taking reservations for camping. This is a change from past years.

To make your reservation you will need to contact Jeff Cumming via email: jtcummings@bellsouth.net

Jeff will send the info needed to make your reservations.

For all other questions Contact - Curtis Adams, 859-421-0421, cadams5420@gmail.com

STUNT HISTORY

The Story of **MODEL AIRCRAFT CONTROL LINE PRECISION AEROBATICS**

Wynn Paul's long-awaited two-volume *Stunt History* book set in a collector slipcase contains a year-by-year chronology of stunt model aircraft events and fliers—from the first control line flight in 1937 through the World Championships in 2014.

The two volumes contain 71 chapters with historical text, competition results, many never-before-seen photographs of stunt airplanes, and a Plane of the Year rendering for each chapter.

A Two-Volume Set!

Volume One, 1937–1979

Volume Two, 1980–2014

Each book is 9 x 12 inches

976 total pages

Full color throughout

SET INCLUDES:

Information about stunt fliers from the 1930s through 2014

The development of the precision aerobatics pattern format from 1946 through 2014

Reviews of hundreds of stunt airplane articles from 1940 through 2014

The development of stunt airplane construction from “stick-built” to “molded balsa”

“Firsts” within stunt airplane history—inverted flight, ignition engines, use of flaps, I-beam wings, the Detroiters, the Nobler, semi-scale, foam wings, jet-style, engines, take-aparts, tuned-pipe, electrics, etc.

Lists of results of USA, World Championship, and other significant competitions from 1946 through 2014

An appendix containing over 1,600 individual stunt plane entries

Available now! Buy online at www.StuntHistory.com
