

The President's Thoughts

By Mickey Breunig, President

Several of us are planning a trip to the Swap meet in Dayton toward the end of March. Combined with the swap meet, we plan on also visiting the National Museum for the US Air Force also in Dayton.

The swap meet is March 24, and 25. It ends rather early on Friday the 24th and rather than drive directly home after visiting the swap meet on Friday, we will go to the museum. The swap meet closes at 2pm on Friday. Several of us will leave the swap meet early on Friday and go to the museum after lunch. Anyone is welcome to join us at the swap meet or the museum.

The Dayton Modelrama is a massive swap meet and is the largest in the area. It is approximately 4 times the size of our swap meet, it lasts 2 days, and has most everything you could want. If you haven't been and enjoy swap meets you should put it on your list of things to do.

The National Museum for the US Air Force is the best museum for military planes in the country. The museum has not only military planes but also NASA memorabilia also. The museum is at least 4 massive hangers and can take more than a day to go thru it entirely. If you have any interest in airplanes at all, this is a trip into history that will amaze you.

Our next meeting will be Saturday January 14th at 11am in the meeting room at Bud's Gun Shop.

Hope to see you there.

Michael Breunig

Meeting Minutes from December 10, 2022

by George Kissick

Call to Order

Meeting called to Order for Lexington Airplane Club by Mickey at 11:07a.m.

- A. Minutes from November meeting accepted for approval a. Mickey made the motion
- b. Jeff Cummings seconded
- c. Motion carried

B. Treasury Report

- A. Sylvester made the motion to approve
- b. Dave Price seconded
- c. Motion carried

C. Training a. No Report

D. Old Business a. Swap Meet Proceeds i. Admission – 205.00

ii. Plane Raffle – 105.00

iii. 50/50 Raffle – 46.00

iv. Donations Table – 256.00

v. Tables sold (62) – 700.00

vi. Donation to the school

- 1. Sylvester made motion to give the school 600.00
- 2. Jesse Harris seconded the motion
- 3. Voted on and approved by members present

vii. Gift cards to the students help with tables

- 1. Motion to purchase 60.00 in gift cards made by Sylvester
- 2. Seconded by Jesse Harris
- 3. Approved by membership

E. New Business :Numb Thumbs Fly-In January 1 Rain, sunshine, or snow

F. Meeting Adjourned by Mickey a. Seconded by Sylvester

Blast from the Past

By David J. Price

This series of articles will present advertisements from vintage modeling magazines. The intent is to illustrate technological advances that have taken place in our hobby. For some it will bring back memories, for newcomers it will present a piece of history of radio control model aviation.

Happy New Year! Here is an advertisement from the January 1931 issue of Model Airplane News for the National Models from the National Model Aircraft and Supply Company, New Rochelle, NY. Featuring the Stinson Junior, Boeing P-12, Heath Parasol, and Lockheed Sirius (Lindy's favorite ship). I know, they're not RC – but 2 foot flying rubber models are still impressive. Based on inflation, \$3 plane would cost \$49 in 2022.

Start the New Year Right —with a National Model

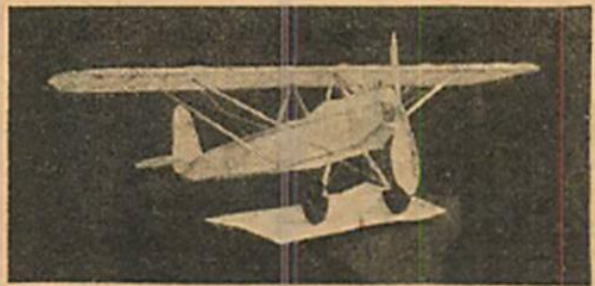

Stinson Junior: A 2 ft. flying model. The most beautiful model you ever build, fuselage construction like real ships. Construction set contains all parts, ready made wire fittings, Dummy Motor, and a full size blueprint.

COMPLETE SET.....\$3.50

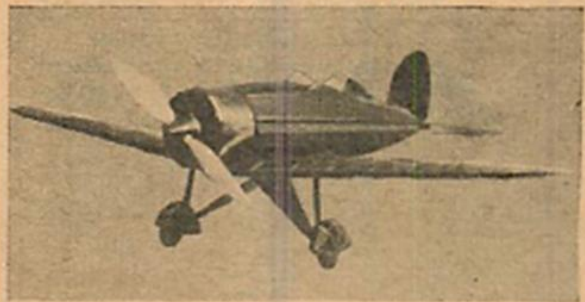

Boeing P.-12: 2 ft. flying model. Set contains all parts to build this model, printed ribs and formers, dummy motor, ready made wire fittings. Ailerons and all Tail surfaces are corrugated, just like the big plane.

COMPLETE.....\$3.75

Heath Parasol: A 2 ft. flying model of the outstanding light plane of today. Set contains all parts with finished wire parts, full size blueprint and instructions.

COMPLETE.....\$3.00

Lockheed Sirius: Lindy's favorite ship. 2 ft. flying model with N. A. C. A. Cowling pants and cone propeller. A plane with a low wing and high speed.

COMPLETE SET WITH BLUEPRINT AND INSTRUCTIONS.....\$3.00

BLUEPRINT ONLY OF ANY ABOVE MODEL—EACH.....50c

Blast from the Past

By David J. Price

OTHER CONSTRUCTION SETS

Models equally well designed and easy to build:

PRIMARY GLIDER with blueprint.....	\$0.50
POWERED GLIDER with blueprint.....	0.75
MIDGET TRACTOR with blueprint.....	0.50
Drawings only for the above set.....each,	0.15
Secondary Glider 16" wingspread.....	1.00
Curtiss Army Hawk 24" wing spread.....	3.00
Vought Navy Corsair 24" wingspread with dummy motor.....	3.75
Savoia Marchetti 24" wingspread.....	2.50
Sikorsky Amphibian 24" wingspread.....	2.75
Blueprints included with all sets.	
Separate Blueprints for any above models each	.50
Catalogue describing all supplies to build model planes.....	.05

We supply schools, clubs, Y. M. C. A.'s, recreation centers and other organizations.

No C. O. D. All goods guaranteed or money refunded. Orders for less than \$1.00 add 15c for postage and packing. \$1.00 or more add 10%.

NATIONAL MODEL AIRCRAFT & SUPPLY COMPANY
29 North Ave., Dept. A-4, New Rochelle, N. Y.

Next LMAC Club Meeting:

Saturday, January 14, at 11:00 AM

Meeting Location:

Buds Gun Shop and Range
1105 Industry Road
Lexington, KY 40505

LMACK Numb Thumbs Event 2023

Great day for the Numb-Thumbs Event. It is always fun to start the year off flying on the first day of the year. The day started off very foggy, so flying was a challenge. We had about 20 people come out for the event. Thanks to Mickey and Terry Booth for preparing the food. We had chili and hot dogs with all the fixins. A good time was had by all. There was flying by some and catching up with old friends by others.

RC Airplane Definitions

Prop Nut: What a glider pilot calls power pilots.

Pucker Factor: A factor that exponentially gets higher, as your out-of-control airplane gets lower. At the high end of the scale, changing your shorts is necessary.

P51 Mustang: What beginners use to learn to fly.

Radio: An expensive electronic device to randomly alleviate overcharged batteries. A device that enables an airplane to crash different places than it normally would.

Radio Glitch: A documented electronic occurrence, causing immediate and irreparable loss of control. The source of a crash when there is a possibility of someone else's radio in close proximity to the airplane.

Receiver: The part of your airplane that picks up interference.

Sink: Non mythical meteorological event stimulated by RC Soaring pilots.

Skid Protector: Another word for a spinner.

Snap Roll: After a nice high G roll, something snaps, usually the wing. Spinner: A critical part of the landing gear.

Stall: What you tell your wife when you want to take it up "one more time."

Swept Area: The only part of your apartment that is not covered with balsa dust.

Tail-dragger: An RC pilot that has just spent the last hour looking for his airplane in the woods.

Thermal: A mythical occurrence of rising air.

Tip Stall: Offering several minutes worth of unwanted advice to a nearby pilot, instead of taking your turn to launch off the winch. Used when sink is in the air, and contest points are at stake.

Trainer Cord: A handy device for electronically installing false confidence into rookie pilots.

Tree: Implement used to separate wings from fuselage.

Upwind Turn: Same as downwind turn. NO, IT ISN'T! YES IT IS!! NO, IT ISN'T! etc.

Wetted Area: After Rex the wonder dog finds the pit area.

Wing: A device that, due to its airfoil, allows air to flow faster over the top, thereby allowing you the opportunity to pour excess funding into the resulting low pressure area.

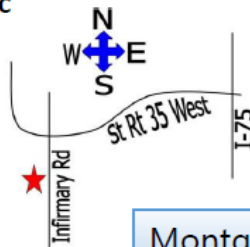

DAYTON MODEL RAMA

2023

One Of The Country's Largest Model Swap Meet & Auction - Manufacturer and Distributor Expo -

Two Buildings - Over 42,000 Square Feet
