

The President's Corner

by Mickey Breunig, President - LMAC

I hope everyone has been able to enjoy some of the nice weather we have been having and were able to take advantage of it for a few good flying days. We have a few busy months coming up for the club. The club picnic is coming up before the next meeting and the trainer banger competition will be held the same day as our August meeting.

The club picnic is always a lot of fun for our members, families, and guests. It is important to have a nice representation of food at the picnic. The club always provides the meats for our lunch at the picnic, but it is very important for all the members to bring a side dish. Jim Newberry is organizing the picnic this year and will let us know what types of side dishes are needed for the picnic. Please pay attention to emails and help Jim coordinate the food for the picnic.

The Trainer Banger competition should be a lot of fun. I know several people who are scrambling to find a trainer for the competition, I am trying to get one together myself. If you don't have one or have access to borrow one, there should be a few there that you can use for the day. This should be a fun, not too serious competition that will be talked about for several months.

I hope to see everyone at the field for some good flying days.

Mickey Breunig

President - Lexington Model Airplane Club

Minutes of June 17, 2017 Club Meeting

by Mickey Breunig

The club meeting was held on Saturday, June 17, 2017 at LMAC Airfield, 4200 Hedger Lane, Lexington, KY.

Club meeting was brought to order at 11:15AM by Mickey Breunig

A motion was made by Mickey Breunig to approve the minutes of the May meeting. The motion was 2nd by Dan Thompson and approved by vote.

The Treasures Report was given by Carroll Ware. Dan Thompson made the motion to approve the report. The motion was 2nd by Curtis Adams and approved by vote.

Old Business

Club Picnic - Jim Newberry gave a summary of the progress for the club picnic. Terry Booth will be cooking and we are looking for an assistant cook. Everyone is asked to bring a side dish to the picnic.

Trainer Banger Competition - The Trainer Banger Competition will be held August 12th with the meeting on the same Saturday. We will have the meeting after the first round of competition.

Fall Classic - Curtis Adams informed us that Channel 18 News will not be able to help and we are trying to get another news outlet to cover it.

Vintage Fly-in - Thursday was a rainout but Friday was nice weather and good flying. The club should receive approximately \$295 from the fly-in.

New Business

We are spending a little more on the lunches at the meetings and the club was asked to approve the additional spending.

Mickey Breunig made the motion to adjourn the meeting at 11:45. The motion was 2nd by P. J. Ash and approved.

Treasurer's Report

by Carroll Ware, Treasurer

There are 115 paid up members with two joining this month.

Model of the Month

Lee Wright won the Model of the Month with his J-3 at the June Club meeting. The plane was built from a Great Planes kit and is powered by a Maximum .61 engine with a Top Flite in-cowl muffler. It is covered with Century 21 fabric and the dry weight is 14 lbs. The wing span per plans is 90 inches, but was built as a 83 inch clipped wing. Lee built the J-3 in Florida during the past two winters, and was brought to Lexington this spring. It has not been flown.

Congratulations to Lee Wright on winning the Coyote Hobbies gift certificate !

More Photos from June Club Meeting

Marcus Lee was the other entry for Model of the Month.

Lexington Model Airplane Club

Family Picnic & Fly-in

Saturday, July 22, 2017

Rain or Shine Gates open at 9 am. Fly till 4 pm.

Eat at Noon Everything is Free

Everyone bring a potluck dish to share. Other Clubs invited.

Bring family and other RC Clubs.

Bring any type and any size model aircraft for open flying

Bring AMA card to fly

Bring potluck dish to share and lawn chairs

Provided Noon time potluck picnic

Provided grilled hot dogs, hamburgers, pork loin and bottled water

Provided runways: 650ft x 50 ft asphalt and 650ft x 60ft mowed grass

Provided covered shelters with many 110vac electric outlets.

Provided covered picnic tables and portable restroom

Picnic Location: Lexington Model Airplane Club Airfield at Lexington, KY Landfill

Directions: Go East of Lexington, KY, on I-64

Take Exit 87, Turn left (North) and go the I-64 overpass.

Then, make right turn onto Rockwell Rd (access road) on north side of I-64

Go to about a mile on Rockwell Rd, turn left on Hedger Lane at large landfill sign.

Go about 1 mile to LMAC airfield gate at 4200 Hedger Lane, Lex. Ky.

GPS Coordinates for airfield : W 84.293921 N 38.052323

Note: Access to airfield will not be until gates are unlocked at 9 am

Trainer Banger Competition - Aug. 12, 2017 at LMAC Airfield

INTRODUCTION

The Trainer Banger Flying Competition was designed by P.J. Ash of Lexington Kentucky to allow pilots of all "shapes and sizes" enjoy competition. After competing for several years, he wanted to open this fun sport to as many as he could. The idea behind using trainers was two fold. One, most every rc pilot either has or can get his or her hands on a trainer relatively inexpensive. Two, with everyone flying the same type of aircraft, all the pilots are now competing on the same platform being judged on only flying ability. The main focus is to try to hinder any aircraft advantage by using the same style aircraft and flying the same style maneuvers.

The purpose of this rule book is to educate you on how the maneuvers are supposed to be performed and how those maneuvers will be judged. It is very important to perform all maneuvers within the guidelines of this rule book. This is the same guideline the judges will be judging on. The maneuvers were picked to simulate how a full scale high wing aircraft (Cessna type) would perform. All the maneuvers are set up to eliminate any type of advantage an aircraft would have such as larger engine, elliptical wing, etc. Your main focus is to simulate your aircraft as close to how the full scale counterpart would fly.

To review the Rule Book.....[Click here](#)

Or, go to www.LMAcKy.org website for details.

We support our local community by donating a portion of the proceeds to local charities. In 2016 we donated \$1000.00 each to two very worthy charities (Easter Seals Cardinal Hill & The Kids Cancer Alliance).

The dates are September 14 - 17, 2017

Location - The Lexington Model Airplane Club Field.

This is technically a Giant Scale Event but we will allow open flying on Thursday and Sunday. Giant scale specs apply with some exceptions. Mono plane = 80 inch or larger wingspan, Bi-plane = 60 inch or greater wingspan. Warbirds with 70 inch wingspan or greater. Any size turbine jets.

Landing fee is by donation. Camper hookup is \$10 per night.

A Saturday night dinner for pilots and their guests will be available. Tickets will be \$12.00 per plate.

New this year. We have arranged a Horse Farm tour provided by one of the leading tour companies in Lexington. The tour will take place on Friday the 15th. Price is \$30.00 each. Reservations requested. Contact cadams5420@gmail.com for reservations and additional information. Payment can be made the day of the tour.

The field features a 650 foot paved runway and a parallel grass runway. The flying area is open and unrestricted. Onsite camping is permitted. Hookups are first come first served. No reservation are accepted.

Contact - Curtis Adams, 859-421-0421, cadams5420@gmail.com

Blast from the Past

by David Price

This series of articles will present advertisements from vintage modeling magazines. The intent is to illustrate technological advances that have taken place in our hobby. For some, it will bring back memories, for newcomers it will present a piece of history of radio control model aviation.

Here is an advertisement from the August 1959 issue of Model Airplane News for the Astrodyne ducted fan impeller. Looks like a cooling fan blade to me. Ducted fans have sure improved since this advertisement.

DUCTED FAN IMPELLER
FOR LAND, SEA, OR AIR CRAFT

65 C. EACH AT YOUR DEALER OR ORDER
DIRECT, POSTPAID; OUTSIDE U.S.A. : 10C.

More Thrust Than a 6-3 Prop!
Pusher Type, 3" In Diameter For .049
Engines. Die Formed Aluminum Alloy.

Tuesday Afternoon Flying at LMAC Airfield

by David Price

Hey working stiffs, can't make it to the Tuesday's morning Over the Hill group, weekends are tied up with chores/errands/projects, not sure someone is at the field – come out Tuesday afternoons and fly with me. Tuesdays have normally been reserved for training, but our current training load is very light (training will continue, if needed) and the flying field has been very lonely.

I plan on being at the field every Tuesday around 5:00PM and fly until dark. Bring anything to fly (planes, drones, helicopters, U/C, FF). Don't want to fly, come out and chat.

If you want to coordinate with me, shoot me an email at:
dprice@lexingtonky.gov (I check it often during work hours)
