

## ***The President's Corner***

***by Mickey Breunig, President - LMAC***

Finally, the flying season is really here! We have finally gotten thru the season I have heard labeled as "The Big Blow" and it's time to fly.

A fly-in that I always look forward to is coming up this weekend in Winchester, The Harold Brown Eat-In. It looks like the weather should be nice for the eat-in and I am sure the food will be great. It will be a great time.

Since I missed our last meeting, I am very much looking forward to the June meeting, Saturday the 17th at the field. Hopefully the day is as nice as it was for the May meeting. I missed a good day with a great turnout. It will be refreshing to see the day enjoyed by all.

Hope to see everyone there.

Mickey Breunig  
President - Lexington Model Airplane Club

# Blast from the Past

by David Price

This series of articles will present advertisements from vintage modeling magazines. The intent is to illustrate technological advances that have taken place in our hobby. For some, it will bring back memories, for newcomers it will present a piece of history of radio control model aviation.

Here is an advertisement from the March 1935 issue of Universal Model Airplane News for Megow's Free Flight airplane kits. The kits ranged in price from 0.25 to 0.50 cents. I must say, I have never have worn a tie while working on my models.
